

STREET AND HIGHWAY LIGHTING

APPLICABILITY

This schedule is applicable to service furnished to governmental or other public lighting authorities and supplied from overhead and underground distribution lines to street, highway, and other public outdoor lighting installations, where the Utility District owns and maintains the entire equipment.

RATES

Lamp Size (Rate is per lamp/per month)	Effective 2/11/2022	Effective 2/11/2023	Effective 2/11/2024
Mercury-Vapor (no longer available for new installations)			
175 watts Mercury-Vapor	\$11.59	\$12.14	\$15.65
400 watts Mercury-Vapor	\$22.21	\$23.27	\$31.09
Sodium Vapor Lamps (no longer available for new installations)			
70/2300 watts/lumens	\$7.92	\$8.30	\$9.86
100/3700 watts/lumens	\$9.26	\$9.70	\$11.83
150/6300 watts/lumens	\$11.64	\$12.19	\$15.28
200/9500 watts/lumens	\$13.66	\$14.31	\$18.34
175W Metal Halide Lamps (no longer available for new installations)	\$12.65	\$13.25	\$16.81
LED Lights			
105/9450 watts/lumens			\$17.25

DECORATIVE CHARGE

A monthly charge of \$2.69, in addition to the above rates, shall be made for each lamp mounted on a steel or decorative pole, mast, or fixture.

SPECIAL CONDITIONS

- Service will normally be supplied to individually controlled lamps from the District's existing 120/240-volt (120/208-volt star in certain localities) single-phase overhead or underground distribution circuits. Service from 480-volt sources will be made available only when this type of service is deemed to be practical from the District's engineering standpoint, and the applicant pays the additional initial cost of a 480-volt supply.
- Customer shall specify in writing the exact location and size of each lamp to be installed.
- Lighting service will be supplied from dusk to dawn on an operating schedule of approximately 4,100 hours per year.
- The charges, pursuant to the District's Line Extension Policy, to connect the light to the District's system shall be advanced to the District by the customer prior to installation of the facilities.
- Street lights will be relocated or removed at the expenses of the customer.
- A decorative pole is one of the following: Steel, Fiberglass, Aluminum or Concrete.
- A decorative mast or fixture is any mast or fixture the District would not stock if not for the special request of the customer.

TAX CLAUSE

To the charges computed under the above rate, including any adjustments, shall be added the applicable

proportionate part of any taxes or governmental impositions which are, or may in the future be, assessed on the basis of gross revenues of the District and/or the price or revenue from the electric energy or service sold and/or the volume of energy generated or purchased for sale and/or sold hereunder. As of the date this rate was approved, two such assessments existed: (1) the specified per kWh tax established by the California Energy Commission; and, (2) A 2.85% of revenue "Public Benefit" charge.

For the purpose of determining monthly energy consumption the size of the light in watts shall be multiplied by 341.

TERMS AND CONDITIONS

1. The District shall not be liable for any damages, direct, consequential, or any other, if this rate is terminated or the provisions thereof changed by action of the Board of the District or any regulatory agency, state or federal, or by action of any court.
2. The rates stated herein are subject to such changes as may be authorized by the Board of Directors of the District from time to time.

AVAILABILITY

Throughout the entire District service area where the facilities of the District are available of adequate capacity.

Date Effective: February 11, 2024
Date Approved: February 8, 2024
Resolution No.: 24-01
