

## DROUGHT RELIEF SURCHARGE

### APPLICABILITY

This schedule is applicable to all customers, whenever the following condition occurs. This Surcharge shall become applicable only after the Department of Water Resources (<http://cdec.water.ca.gov/snow/bulletin120>) April Bulletin 120 reports that the then current Water Year is below average. Once applicable this Surcharge will continue until the next April when the Bulletin 120 report announces that the then current Water Year is above average, at which point the Surcharge will be suspended until it becomes applicable again. The Surcharge, if applicable, will begin with the May billing month and end, if applicable, with the April billing month.

### RATES

A Drought Relief Surcharge shall be added to all customer monthly bills as follows:

1. Energy charge for any Rate Schedule that identifies the Drought Relief Surcharge is applicable.  
\$0.017 per kWh
2. Street and Area lights; Rate Schedules 7 and 8:

Wattage or equivalent	70	100	150	175	189	200	295	400
Monthly Surcharge	\$1.18	\$1.69	\$2.54	\$2.96	\$3.20	\$3.38	\$5.00	\$6.76

### SPECIAL CONDITIONS

1. The intent of the Surcharge is to recover the additional cost that the District is charged by Western Area Power Administration due to reduced hydroelectric generation caused by a below average Water Year. The Board of Directors shall meet to determine if the Surcharge amount is appropriate and if not, adjust the Surcharge amount.

Date Effective: February 11, 2022  
 Date Approved: January 13, 2022  
 Resolution No.: 22-02
