

**COMMERCIAL POWER SERVICE  
PROMOTIONAL RATE**

**APPLICABILITY**

This schedule applies, at the District's sole option, to a new customer with an electrical demand of twenty-five kilowatts (25 kW) or more, or to existing customers who increase their electric demand by twenty-five kilowatts (25 kW) or more, and who has demonstrated to the District's satisfaction that the customer will create and maintain not less than five (5) new full time jobs in the District's service territory.

Such service (single or polyphase alternating current) shall be supplied at one point of delivery and measured through one meter, and is not available for resale, temporary service standby or auxiliary service, or service to any equipment which will cause excessive voltage fluctuation. This service is also unavailable for High Impact Loads (as defined in the District's High Impact Load Rate Schedule 20) that are more costly for the District to serve.

Failure to maintain five (5) or more full-time new jobs will cause immediate conversion from this promotional rate to the District's other applicable rate on file. Trinity PUD has sole discretion in determining the applicability of this rate.
